

Girtz Quality Policy

G-QM-S-001

Revision: 00

Page 1 of 1

Girtz Industries, Inc., is a leading manufacturer of high quality power packaging, industrial equipment enclosures, and metal fabrications. Girtz Industries is drawing on this expertise to move into alternative energy markets. As an industry leader in the custom design and build to order market, Girtz Industries is dedicated to satisfying customer requirements through a commitment to excellence and a spirit of continuous improvement. Furthermore, Girtz Industries strives to meet and exceed all commonly accepted Quality standards and applicable legal requirements. Girtz Industries, therefore, pledges to implement and operate a Quality Management System that makes the best possible use of our processes, physical resources, and people, in producing the best possible product for timely delivery to our Customers. As this Quality Management System is continuously operated and improved, necessary communication about the system will be shared with interested parties who so request.
